CLARENDON HALL DEPARTMENT OF ATHLETICS

MISSION STATEMENT

The mission of the Clarendon Hall Athletics Program is to instill in students a commitment to athletic excellence at all levels of participation that will contribute to the development of their individual characters.

STATEMENT OF PHILOSOPHY

The athletic program at Clarendon Hall is student-centered and an integral part of the student's total educational experience as well as an opportunity to serve and grow as a follower of Jesus Christ.

Clarendon Hall believes in a comprehensive physical activity program for all students. The athletic program seeks to promote mental, emotional, and social health in addition to the physical development necessary for an active life. The program is designed to provide positive learning opportunities for each student who participates, to reflect the school's ideas of Christian values, diversity, continual growth and achievement, and the development of the student's greatest potential. Furthermore, the program's goal is to provide equity among all teams and for all students so that all participants and teams have a chance for success.

Clarendon Hall seeks to cultivate a strong set of values for all student-athletes, such as self-discipline, integrity, sacrifice, commitment, teamwork, team and school spirit, self-confidence, and the development of physical fitness. Decision-making skills, good citizenship, good sportsmanship, and the promotion of individual maturity should also result from athletic participation. These characteristics assist in the development of individual and team attitudes that are beneficial for a successful season and for future life.

Interscholastic sports offer the athlete an opportunity to compete at the highest level, locally and statewide. The school encourages each student to be engaged to the best of his/her ability in the sports of his/her choice. The athlete shall be expected to maintain the same academic standards as any other Clarendon Hall student.

We live in a world where individual statistics and adulation of a player have become important. Parents are more and more concerned with their child's individual performance rather than a team-oriented objective. This focus has greatly damaged the basis for playing a sport. Students should play to be a part of a team, to play for the team rather than ever considering personal reward, and to experience being a part of something more important and bigger than themselves.

We will submit names and records to newspapers when appropriate, but our primary focus is for student-athletes to play for Clarendon Hall and for the team. We will discourage inappropriate focus on publicity for individuals. Clarendon Hall will attempt to provide as many levels of participation as feasible given adequate facilities, staff, and schedules.

CLARENDON HALL DEPARTMENT OF ATHLETICS HANDBOOK

This handbook contains policies and regulations that govern extracurricular athletics at Clarendon Hall. This Athletic Handbook is an extension of the Clarendon Hall Family Handbook, and all rules and regulations as set forth by the Head of School.

SPORTSMANSHIP

Clarendon Hall conducts an extensive interscholastic athletic program in the belief that team experiences contribute significantly to the development of character and school spirit. Sportsmanship and fair play are vital parts of this training.

Coaches, student-athletes, parents, and faculty are expected to dedicate their commitment to controlling their emotions in challenging situations. Respect begets respect. Clarendon Hall expects our entire school community to be respectful of all, on and off the field/court of play.

We play hard, while we respect our opponents and their efforts. Clarendon Hall athletic teams represent all of us. Spectators represent us as well, so it is important that we all practice sportsmanship and fair play. We want visitors to our campus, as well as our hosts when we play at other schools, to notice clearly that there is something special about the Clarendon Hall family.

We encourage and endorse school spirit and the enthusiastic support of parents and friends of the school. Focusing on these topics, we expect adults to uphold the same high standards as the students. Taunting and disrespect for opponents and contest officials are expressly prohibited and will be closely scrutinized by contest officials.

Clarendon Hall will not tolerate any spectator, either student or adult, whose behavior is disrespectful toward officials, coaches, players, cheerleaders, or other spectators. Neither will Clarendon Hall allow any type of spectator behavior that either detracts from the proper conduct of the game or disadvantages a player or team. Thus, all concerned will have the opportunity to look forward to our athletic contests and enjoy them to the fullest extent.

SCHOOL RESPONSIBLE FOR CONDUCT OF PLAYERS, FANS, AND COACHES

Each School is responsible for the actions and conduct of its coaches, athletes, and fans before, during, and after the game. In the case of unsportsmanlike conduct on the part of the coaches, school officials, players, students or spectators of a school, the school will be subject to discipline by the Athletic Committee. All FINES will be directed to the offending school. The school will be responsible for paying any fine within ten (10) days of receiving notification of the fine.

HANDLING A FRACAS

Should a fracas begin, only members of the coaching staff will go on the field to stop the fracas. All substitutes and other team personnel are to remain in the team box. The officials are instructed to stay in control of the contest and not allow a fracas to begin, but once one has begun, they cannot get physically involved. Any athlete who leaves the team box or bench area and enters the field or floor area will be disqualified. All cameramen should be instructed to continue filming. This film will be vital to the Athletic Committee's investigation of the incident.

PROCEDURES FOR INTERSCHOOL COMPLAINTS

1. All violations of the Constitution or the Code of Conduct must be reported in writing to the Athletic Office.
2. Such violations, if possible, should be resolved directly between schools. The Athletic Office will be happy to assist in the resolution. The Athletic Committee reserves the authority to review all cases to ensure that such violations have been dealt with properly.
3. If direct school to school contact with the assistance from the Athletic Office fails, then the matter will be brought before the Athletic Committee at their next regular scheduled meeting. Each school must submit a written brief containing all known facts pertinent to the incident. This information should be complete to the point that it will be possible to reach a valid decision without further investigation. The written brief must be submitted at least five days prior to the Athletic Committee Meeting through the Athletic Office. The Committee may require the presence of any or all of the parties involved. All parties involved will be offered an opportunity to appear before the Committee.

Rules and Regulations: Guidelines For Penalties And Fines

During a school year, situations may arise involving the rules and regulations pertaining to the rules of the game, eligibility, required forms, schedules, entries to tournaments, and unsportsmanlike conduct are considered by the Athletic Committee. In order to avoid inconsistencies and to assist the Athletic Committee in being uniform in its dealings within the Association, these guidelines have been established. The Athletic Committee has the authority to raise or lower a fine depending upon the severity of the offense.

Ejections/Disqualifications of Players and Coaches:

Conduct that leads to an ejection/disqualification will be considered as serious unsportsmanlike conduct or a violation of a safety rule. Depending upon the severity of the offense, a player or coach may be warned, fined, suspended or placed on probation. These offenses are cumulative over the student's career. The disqualification of a coach will be considered on a case by case basis.

SCISA ATHLETIC ELIGIBILITY RULES

The primary purpose of school is participating in one's own EDUCATION. The participation in athletics is a privilege for students who are in good academic standing. An ineligible student-athlete is not allowed to participate in any type of team practice or to participate in any type of game competition against another school. "Dressing out" and/or being in the team bench area are considered to be forms of participation.

1. A student is ineligible if his/her nineteenth birthday is before July 1st of that school year.
2. A student must take, pass, and receive credit for at least four one-credit, core subjects, or their equivalents (courses which have not been previously passed) each 9-week marking period. If the student does not meet the standards, he/she will not be eligible during the next 9-week marking period.
3. A student must have received credit for at least four one-credit courses from the previous school year to be eligible for the first 9-week marking period. Credits earned during summer sessions may be accepted from an accredited school.
4. Eligibility during the current school year will be determined by the first quarter/first semester/third quarter grades.
5. A student must attend a full academic day (4 core classes) in order to participate in a practice or to play in a game on any given day. All class absences must be excused absences. We firmly believe that if a student is too sick to attend classes, the student should not participate in athletics, including practice, for that particular day. If a student has a doctor's appointment (or other non-academic commitment), the student must still attend a minimum of three classes in order to participate in any daily athletic activity or present a valid excuse for absence.

EIGHT SEMESTER RULE

All students will have Eight (8) Consecutive Semesters of Eligibility beginning when he/she first enters the ninth grade, regardless of whether he/she participates in athletics. Exceptions to the Eight Semester Rule may be granted by the Athletic Committee for a DOCUMENTED MEDICAL CONDITION, caused by an illness or injury, which prevented his/her attending school sufficiently to pass.

A request for a waiver may be considered at the time that the facts have been determined. Example: Student A was unable to attend school during the tenth grade because of an extended illness. A request for a waiver could be made and considered as soon as he/she recovers. All requests for waivers must be made in writing by the Headmaster.

Requests for an Eight Semester Waiver must contain the following:

1. A written request from the school for an Eight Semester Waiver.
2. A copy of: A. Birth Certificate; B. Complete Transcript.
3. Documented medical information from a licensed healthcare provider stating the causal relationship between the medical condition and the school absences.
4. Detailed attendance records clearly indicating and corresponding to absences directly related to the documented medical condition.
5. Statement from the school administration attesting to the academic failure/retention due to excessive absences caused by a documented medical condition. Also, detailed information addressing how/why academic assistance would or would not be able to bring the student up to standard.
6. A written appeal brief must be filed, in its entirety, ten days prior to a scheduled meeting.
7. The school may request to personally appear before the Athletic Committee. Presentations to the Athletic Committee shall be limited to 15 minutes.

CLARENDON HALL DEPARTMENT OF ATHLETICS GENERAL POLICIES

1. SCISA rules will govern all sports sanctioned by the association.
2. Students should not be unduly influenced to participate in a sport or to participate in one sport over another. Clarendon Hall cannot get involved in sports specialization. All coaches and all teams should enthusiastically promote the overall Clarendon Hall Athletic Program.
3. Games or scrimmages may not be held on Sundays.
4. Voluntary practices may be held on Sundays with the approval of the Athletic Director.
5. Athletic Medical Release and Code of Conduct Forms - All students participating in competitive athletic teams must turn in a completed medical health and code of conduct forms and any other forms provided by SCISA. Any student that does not have a current form on record will not be permitted to participate until all of the necessary paperwork is completed. These forms should be turned in to the Athletic Department.
6. Athletic Eligibility - In order to participate in interscholastic athletics, a student must pass four academic courses each grading period. This eligibility is determined on the day report cards are issued. We firmly believe that if a student is too sick to attend classes, the student should not participate in athletics, including practice, for that particular day. If a student has a valid medical excuse or a valid non-academic commitment, approved in advance by the Athletic Director, the student may participate in the daily athletic activity. The student must present the excuse to the Main Office and coach before participating.
7. If a student-athlete is dismissed from a team or voluntarily leaves a team before the end of that season, he/she may not compete, practice, or workout with another team during that season, nor can that student-athlete compete, practice, or workout with next season's team before the current season has ended.

8. Three (3) unexcused absences from practice will result in the student/player being dismissed from the team pending Athletic Director and Headmaster approval. SCISA declares the first practice date for each sport. The only exception to this policy is overlapping sports, such as football and basketball. A football player would be excused from basketball practice until the end of the school's football season.

Excused absences include:

1. Medical appointment
2. Illness
3. Funeral
4. School function or field trip
5. After school tutoring.

9. A student-athlete involved with a team whose season is still in progress may not practice with the next season's team until the current season has officially ended, unless special arrangements have been made with the head coach of the team whose season is in progress. Any type of special arrangement must get Athletic Director approval in advance.

10. A student-athlete involved in B-Team Girls Basketball, B-Team Boys Basketball, and B-Team Baseball or B-Team Softball may only move up to the Junior Varsity level if no cuts were instituted at the Junior Varsity level or if an injury/dismissal occurred that opened an available place on the team. The Head of School reserves the right to use discretion in situations where more players may be needed.

11. A student-athlete can only move up from one athletic level to the next.

12. Coaches may select the players they wish to move up to the next athletic level only with the approval of the Athletic Director at the end of a team's regular season. All players in a particular grade level are not automatically invited to move up to the next athletic level. Only those players deemed ready to move up to the next athletic level will be invited by the coach to move up.

13. All concerns related to athletics will be fielded by the school's Athletic Director. The Athletic Director will not field any questions related to playing time.

Complaints will be registered in the following order:

1. The complaint will be registered by the parent to the coach in question at a scheduled meeting. (Do not approach a coach after an athletic contest)
2. The parent, if not satisfied with the answers given by the coach with their initial meeting, will then meet with the Associate Athletic Director and/or Athletic Director and the coach in question.
3. If the parent is still not satisfied with the answers given in the second meeting, the parent may request a meeting with the Head of School.
4. The Head of School or Athletic Director will not field any concerns about athletics unless the above listed criteria has been exhausted.

Coaches must notify the athletic director, who shall notify the head of school when a new and/or transferring student wants to join an athletic team within this two week period in order for the player to be considered for eligibility. After this two (2) week period, the student shall be ineligible to participate in the sport for the duration of the season. This policy is in addition to athletic eligibility requirements stated by the South Carolina Independent School Association (SCISA). Therefore, if SCISA requires a student to sit out for a specified period, the student shall be ineligible if unable to join the team within 14 days of the first official game.

Clarendon Hall may also offer elementary level football, cheer, and basketball programs depending on the level of interest, number of volunteer coaches, and availability of facilities, uniforms, and equipment.

Varsity Teams

Membership on a high school varsity team generally requires several years of experience in the sport. This level is very competitive with the goal of vying for state championships. Varsity team members will engage in a season of conditioning and strength training in addition to the competitive season. Clarendon Hall schedules many of the strongest teams in the private and public school leagues.

Certain sports, such as football, basketball, volleyball, and cheerleading may require attending a team-camp off-campus. Students should always be mindful of the level of commitment and sacrifice it takes to be a part of a varsity squad. Coaches should also communicate the requirements expected for team members in the off-season and in-season.

Fall sports, such as football, volleyball, and cheerleading will begin practice before school starts. Students and parents need to adjust their calendars and coaches need to notify the students when practices will start well in advance.

All Varsity Sports will require pre-season and in-season strength and conditioning training. This training will be driven by the demand of the sport and will help with injury prevention. The coach of each sport will determine the number of minimum workouts required to participate.

Junior Varsity Teams

Participation at this level is for girls and boys who are not yet physically ready or experienced for varsity competition. JV teams are striving for maximum skill development, competitiveness, and winning seasons. These teams are essential parts of the construction of the varsity's success in the future. While strength and conditioning training is not required at the Junior Varsity level, it is highly encouraged.

Middle School Teams

At the middle school level, emphasis is on skill development and participation while also striving for winning seasons. Certain sports may not be able to accommodate all students who tryout. The Athletic Department will do its best, within its means, to find qualified coaches and opponents for these athletes.

At all levels, Clarendon Hall does not adhere to an "all players get equal playing time" policy, but our coaches are considerate to each athlete having a meaningful role on their respective team.

TEAM TRYOUT GUIDELINES

If tryouts are necessary, which will be dictated by the number of student athletes, and approval by the Athletic Director and Head of School, coaches will follow these guidelines:

1. Inform parents and students when and where tryouts will be held. A sign-up sheet for those trying out will be posted in the front office and/or on the Athletic Department's door. This sheet is necessary to see how many students will be at tryouts on the first day.
2. Inform all players regarding criteria for evaluation.
3. In the fall and winter, tryouts will be conducted on the first three days of organized practice.
4. Because of the month-overlap between the winter and spring seasons, it is rarely possible to have the whole team together for the official start of the spring sports season. In the case that tryouts cannot be held with all potential team members present, tryouts can be held on an individual basis. The individual tryout must be approved by the winter coach, the baseball/softball coach, and the Athletic Director.

PRE-SEASON PRACTICE

1. A coach will supervise a pre-season (varsity players only) strength and conditioning program three to four times per week.
2. Holiday Practices:
 - Thanksgiving: No practice on Thanksgiving Day.
 - Christmas Holidays: There will be a gym schedule with each team given a particular time. Basketball coaches are encouraged to work together on gym times.
 - Practice is not allowed on Christmas Eve or Christmas Day
3. If an athlete is participating in an in-season sport at Clarendon Hall and an out-of-season sport, the in-season sport at Clarendon Hall takes precedence and the coach of the out-of-season sport will require the athlete to compete in the in-season sport if there is a conflict.

REMINDERS TO STUDENT-ATHLETES:

1. Clarendon Hall does not have the enrollment to support "sport specialization."
2. Students should be encouraged by all coaches to compete for Clarendon Hall and not for off-campus organizations.
3. Any student-athlete who cannot attend practice or a game must notify the coach in person or by a phone call. Practice can only be missed with permission from a coach, physician, or when a school absence, as outlined in the Family Handbook, requires the student to miss.
4. Missing practices may cause an athlete not to play in games.

5. A student-athlete must attend practice to observe even though he may not be able to participate unless excused by a coach or physician. (Example: a student-athlete with a broken arm can still review films, observe plays, and participate in skill sessions). However, a student who has a contagious illness, should not attend practice. This should be discussed with your coach.
6. If requested by the head coach, athletes will be expected to make up all missed practices. These practices will include all fundamental work and conditioning that was missed.
7. A student-athlete who has been injured and/or under a physician's care must bring a statement from the physician that the student-athlete is ready to return to practice and/or game participation. Any limiting condition must be clearly stated in the letter. This is for the protection of the student-athlete.
